

The background features a large, light blue oval with a thin white border. Inside this oval, there are twelve small, light blue stars arranged in a circular pattern, resembling the stars on the European Union flag. The entire design is set against a dark blue background.

Spiro'Clock

Project Presentation

I.BA_183_GENCG_MM.H2501

16th of December 2025

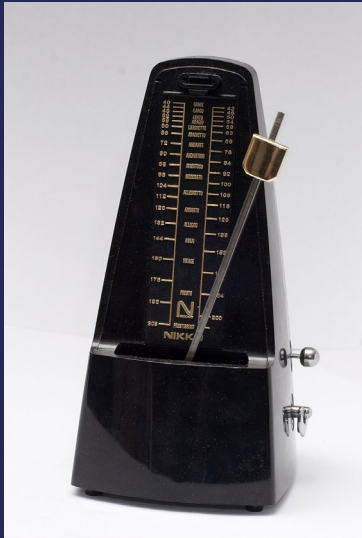

Concept

spirograph patterns

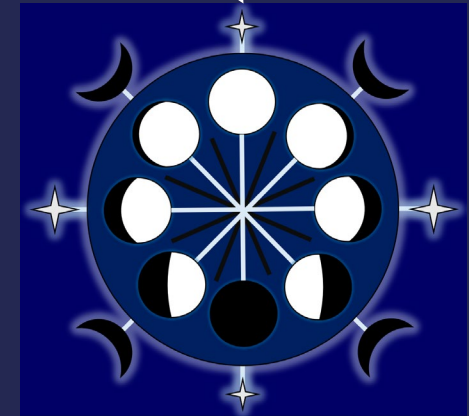

pendulum creating linear art
over time

metronomes
setting a beat

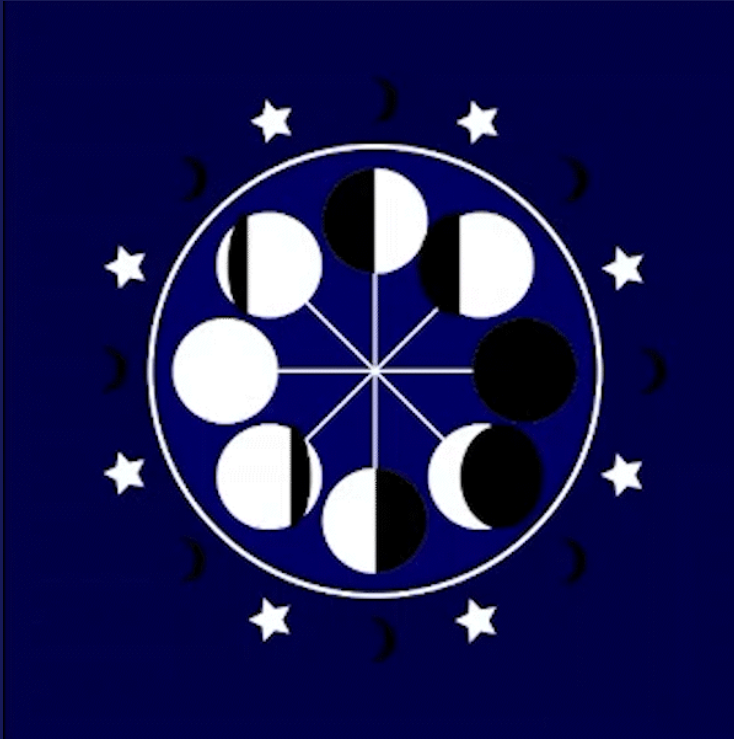

time and its perception

sketch in week 3

Process & Experiments

Lunar Cycle

- passage of time
- sundial
- stages of the moon

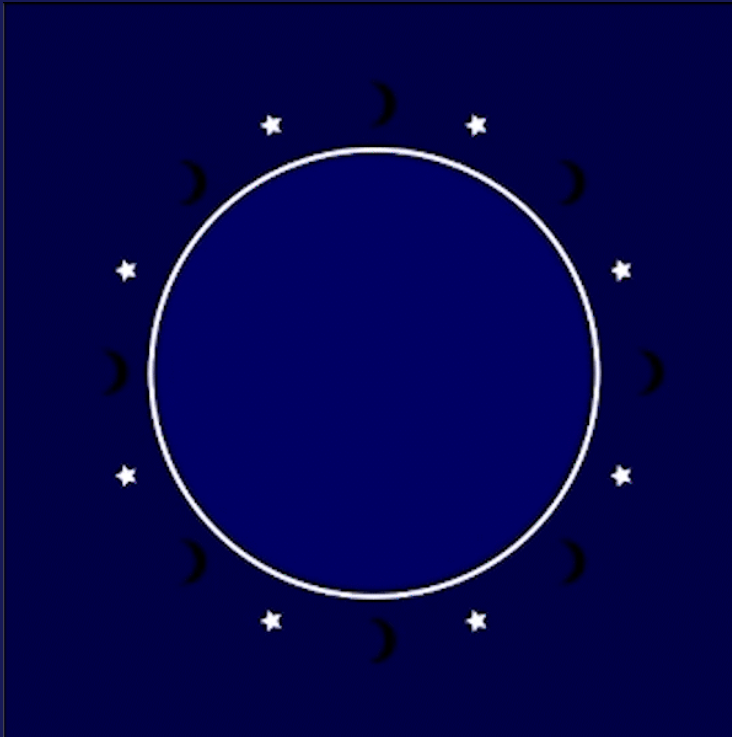

Spirograph

- drawing machine
- artwork generated over time
- timed swings

Process & Experiments

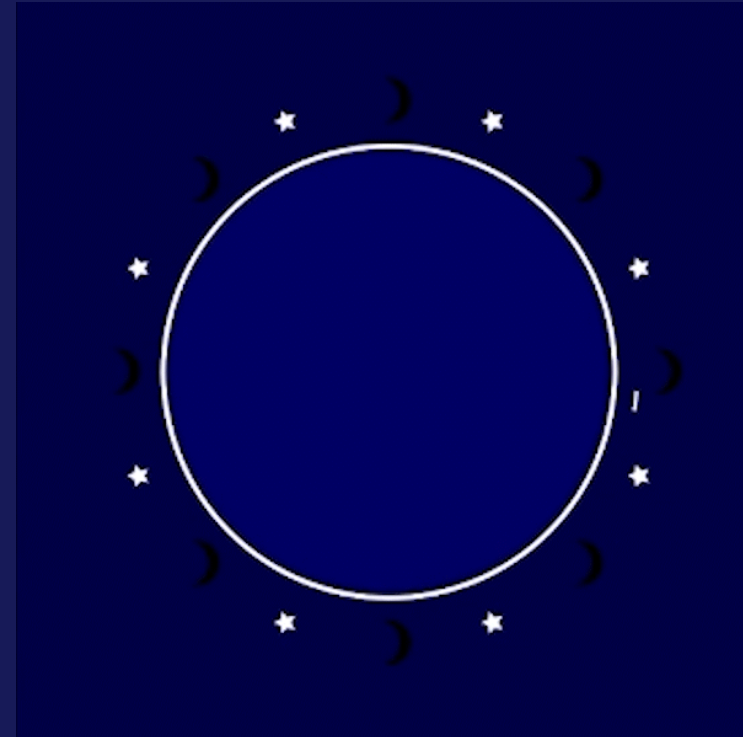

Interaction

- changing colors with mouse click
- influence rotation with cursor location

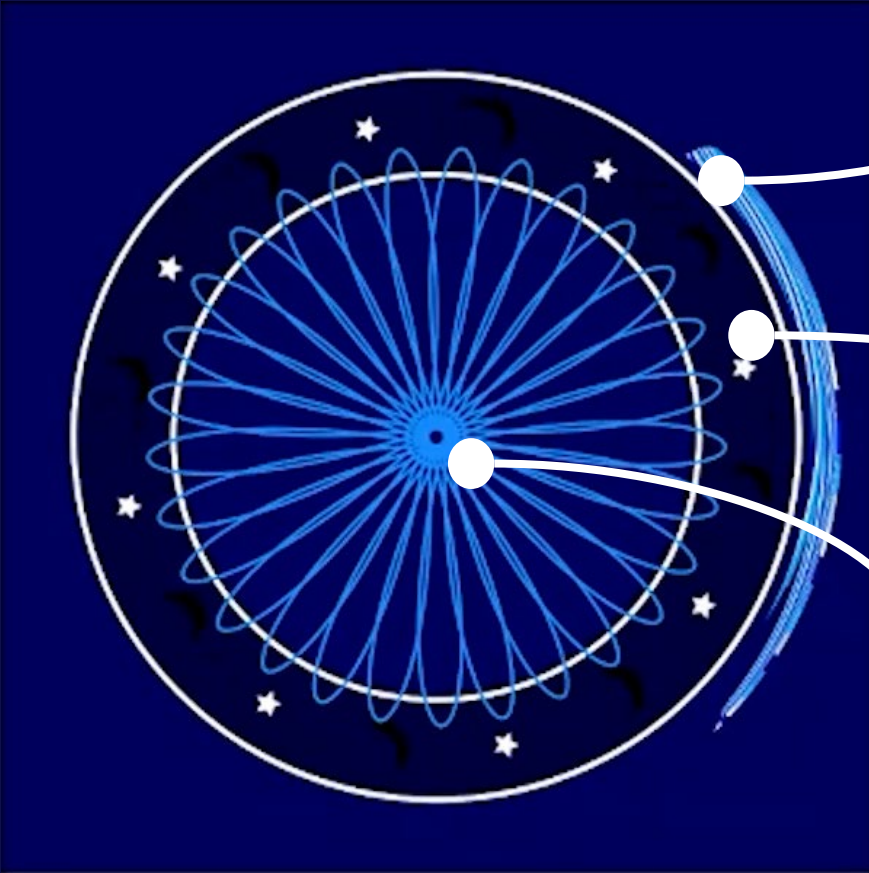

Errors = Inspiration

- adjust timing
- seconds counter

Algorithmic System

Seconds Spirograph

- draws a curved line
 - drawing time = one second
- changes color after one second
- new line = new color
- angle changes
 - rotation around the band

Moon and Star Band

- rotating circle (clockwise)
 - tracks mouse location
 - rotation speed control
- white stars
- black crescent moons

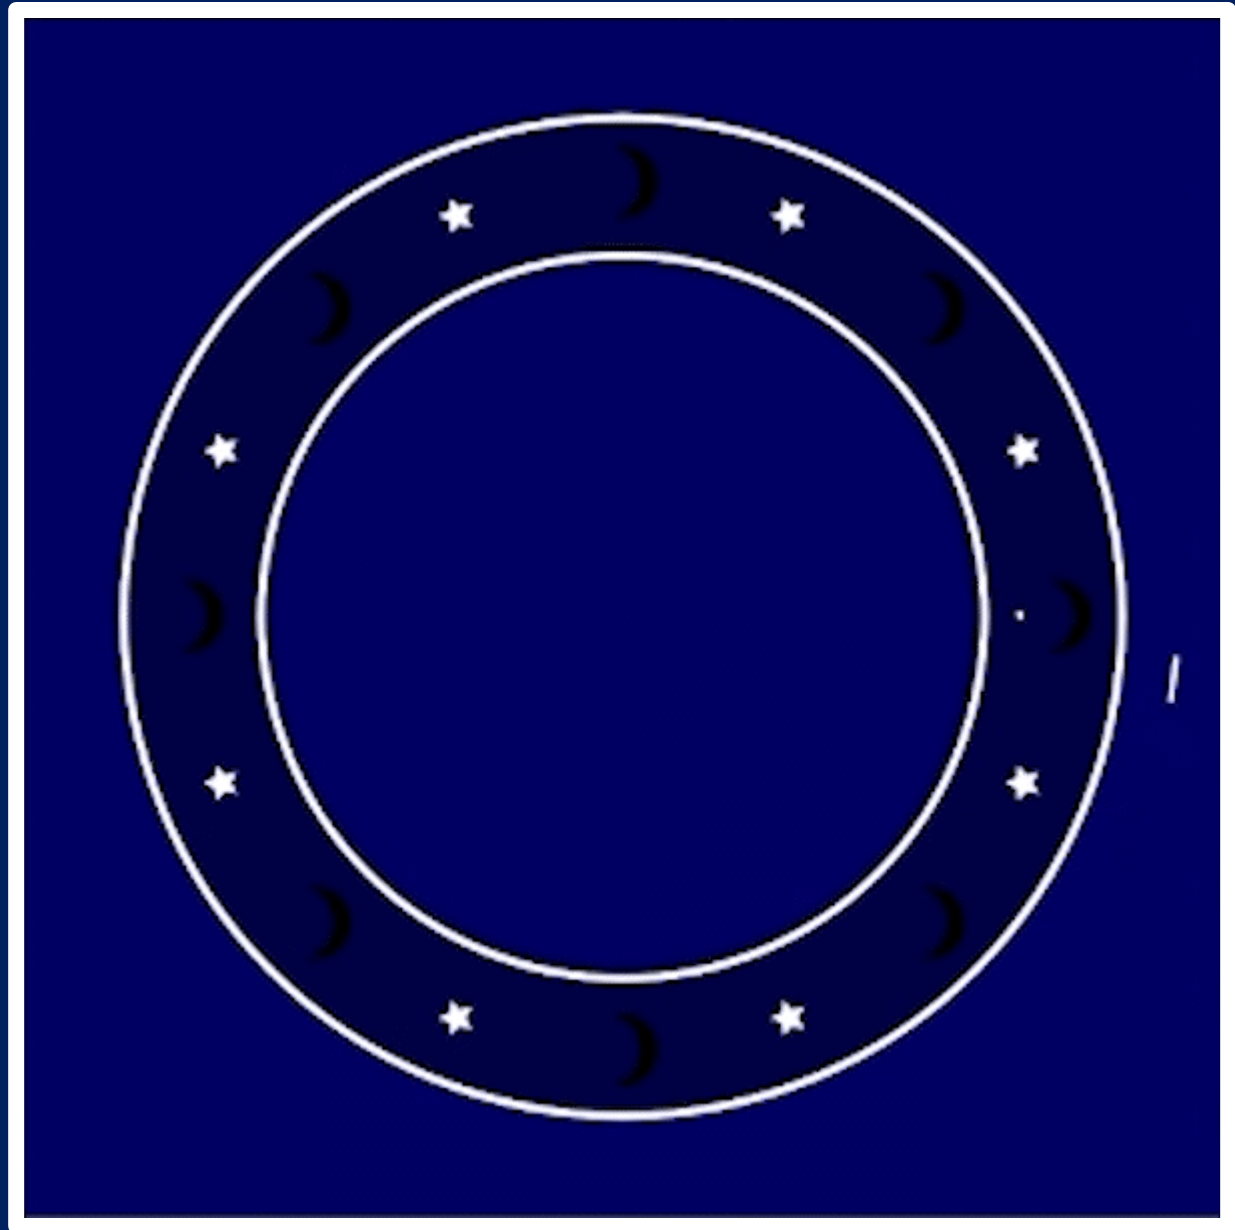

Central Spirograph

- draws mandala pattern
- color change function
 - triggered through mouse click

Final Output

- background spirograph
 - visualizes seconds passing
- moons & stars band
 - moon dial
 - rotation
 - cursor movement
- central spirograph
 - calming, steady mandala
 - color change
 - mouse click
- **Meaning: Perception of Time**

[Artwork Link](#)

Reflection

Learnings

- workings of p5.js
- coding
 - 2D
 - interaction
- new sources of inspiration

Any Questions???

Thank You for your Attention!!!
